# Book accommodation in Väderum station

We are now starting rental of Väderum's station, idyllically located along the narrow-gauge railway Hultsfred–Västervik in the south-eastern part of Vimmerby municipality between Tuna and Vena.

Have you considered living for a week or a few days in a real station house? Here is the opportunity to do so in a station house from 1879 with much preserved charm.

Väderum's station consists of 2 bedrooms and a small waiting room and is equipped as a leisure accommodation with three regular beds and modern bathroom with water toilet and shower. Kitchen with stove with oven, fridge and freezer, crockery and household utensils, but no dishwasher.
